**N.S MEMORIAL COLLEGE OF NURSING, PALATHARA,
THATTAMALA. P. O, KOLLAM**

N. S. MEMORIAL INSTITUTE OF MEDICAL SCIENCES

The N. S. Memorial College of Nursing, envisioned in 2012 to mould a new generation, with the knowledge, skill and attitude to provide nursing care to the sick and the disabled and to bring about new innovations in the field of nursing education. The college is recognized by Indian Nursing Council & Kerala Nurses and Midwives Council and is affiliated to Kerala University of Health Sciences. This prospectus contains general information and rules relating to admission to B.Sc (N) under management quota. Candidates are requested to go through the prospectus carefully and acquaint themselves with all relevant information.

The N. S. Memorial Institute of Medical Sciences, located at Kollam, Kerala, India, was founded in the year 2000 in memory of the late Sri. N. Sreedharan, a renowned humanitarian and politician. The first Co-operative Multi Specialty Hospital in South Kerala, N.S. Memorial Institute of Medical Sciences aims at providing the best of medical facilities and services at affordable costs. The hospital which started as a small venture has undergone remarkable growth in infrastructure facilities and general amenities over the years. More than 1500 patients attend the Out Patient Department daily, which is the largest OPD census second to that of District Hospital, shows that the hospital is one among the most popular hospitals in Kollam District.

More than 700 highly trained, skilled and motivated medical and paramedical staff utilizes their expertise to the best interest of the patients. There are almost all the specialty departments with 2-3 units in each

department and super specialty departments like cardiology, pulmonary medicine, nephrology, neonatology, gastroenterology, neuro medicine, neurosurgery, reproductive medicine etc. Sixty doctors provide round the clock medical care to patients in the hospital. The administration of NSMIMS is controlled by a ten member executive body as per the co-operative department rules and regulations.

PHILOSOPHY OF B. Sc NURSING PROGRAMME

- The faculty of this college believes that the professional nursing degree course based and built on sound scientific educational theory and practice, prepare our students to provide comprehensive care with compassion to all the individuals of various age groups, in all health care settings and function effectively as a team member.
- We also feel the need in developing a scientific and research attitude and an ability to meet the issues and challenges confronting the nursing profession today.
- We also recognize the need for enhancement of leadership qualities in nurses to uplift nursing image and practice.
- Education brings about change in behavior, which best occurs in an organized environment. Nursing should prepare nurses for first level position in nursing in both hospital and the community. We are committed to accomplish the responsibilities towards the society and the students by helping them to transform into responsible citizens and dedicated professionals.
- Professional nursing is a lifelong service to the people. Nursing must advance along with other health professions for a balanced health care delivery. Therefore, we prepare students to develop ability to analyze situations and problems critically and to take responsibility for their

higher education for maximum professional effectiveness throughout their career.

- We recognize that the nature of nursing is such that a substantial portion of students learning is acquired through the education and practice in the patient care settings. It is interdependent with allied professions and occupations to promote and maintain the nursing standards.
- Being a part of the charitable, non-profit making and voluntary organization, the students grow up into individuals with finest character.

PURPOSE

The important purpose of our Institution is to provide professional education based on scientific principles, so that the prepared graduates will assume responsibility as professional nurses in the primary, secondary and tertiary care settings. The graduates are also expected to work as educators and administrators in clinical settings as well as nursing educational institutions. This will be done by means of a programmed teaching which is geared to the health needs of the country, community and the individual in society. The bachelor's degree in nursing will serve as a basis for advanced study and specialization in nursing and will assist nurses in their personal and professional development, so that they may make their maximum contribution to the society as a responsible citizen and a nurse.

OBJECTIVES

On completion of the four year B.Sc Nursing programme, the graduate will be able to

1. Apply knowledge from physical, biological and behavioral sciences, medical including alternative systems and nursing while providing care to individuals, families and communities.

2. Demonstrate understanding of lifestyle and other factors, which affect health of individuals and groups.
3. Providing nursing care based on nursing process in collaboration with individuals and groups.
4. Demonstrate critical thinking skill in making decision in all situations in order to provide quality care.
5. Utilize the latest trends and technology in providing health care.
6. Provide promotive, preventive, and restorative health care services in line with the National Health Policies and Programmes.
7. Practice within the framework of code of ethics and professional conduct and acceptable standards of practice with the legal boundaries.
8. Communicate effectively with individuals and groups, and members of the health care team in order to promote effective interpersonal relationship and team work.
9. Demonstrate skills in teaching individuals and group, in clinical / community health settings / teaching institutions.
10. Participate effectively as members of health team in health care delivery system.
11. Demonstrate leadership and managerial skills in clinical/community health settings/ teaching institutions.
12. Conduct need based research studies in various settings and utilize the research findings to improve the quality of care.
13. Demonstrate the awareness, interest and contribute towards advancement of self and of the profession.

FACILITIES

Laboratories

There are six laboratories namely Foundations of Nursing, Advanced Nursing, Maternal & Child Health, Community Health Nursing, Nutrition and Pre-clinical Science lab.

All laboratories are equipped with modern and sophisticated equipments for imparting practical training to the students.

Computer Lab
